

Travel & Parking Arrangements:

There are two landing stages in use for Lincoln Head; the LINCOLN stage is on the North side of the river, next to the boat house across the Titanic Bridge and the BOSTON landing stage, as used for the Boston Marathon, which is close to the Titanic Building. Both are situated downriver from Stamp End Lock.

Crews allocated to the BOSTON landing stage should park boat trailers and tow vehicles in the car park parallel to the Titanic Building (which houses *Lincs FM* and various other companies) leaving spaces adjacent to the buildings free and accessible for anybody working in the building.

Crews allocated to the LINCOLN landing stage should park trailers parallel to the riverbank in the shallow lay-by east of the boathouse, towing vehicles and private cars should then be driven over the Titanic Bridge and parked in the large car park east of the Titanic Building past Beech House: See photos below.

Sat Nav

For Sat Nav purposes, the intersection of Waterside South with either Spa Road (if recognised) or Broadgate may be useful. The following postcodes can also be used to find Lincoln Rowing Centre:

Lincoln Rowing Centre	SK 98592 71030	LN2 5TB
Beech House Car Park	SK 98643 70974	LN5 7JH

NOTE it is only possible to turn onto Waterside South when travelling SOUTH down Wragby Road / Broadgate.

From North / A46 Eastbound;

Vehicles with trailers are recommended to follow the Lincoln northern bypass around to the A15 (end of dual carriageway), then turn in towards Lincoln North and the "Cathedral Area" at this roundabout. Drive directly towards the cathedral until the next roundabout, then turn LEFT into Longlands Rd. Straight across the roundabout into Ruskin Ave. At the traffic lights at the end turn Right onto Wragby Road and follow this for about $\frac{3}{4}$ mile down the hill as it becomes Broadgate; for those trailers allocated the LINCOLN landing stage turn sharp left into Waterside North just before the Witham Bridge (British Legion on this corner), for those allocated the BOSTON Landing turn sharp left into Waterside South immediately after crossing the Witham Bridge. A footbridge crosses Broadgate overhead at these turnings. NOTE: If you have gone under this footbridge you have missed both turnings. Both roads then run parallel with the River Witham until Stamp End Lock, you will then pass under the Railway Bridge and BOSTON Landing stage parking is on your right and the LINCOLN landing stage parking is past the boat house on the bank side. Please be aware that these roads are narrow and take care.

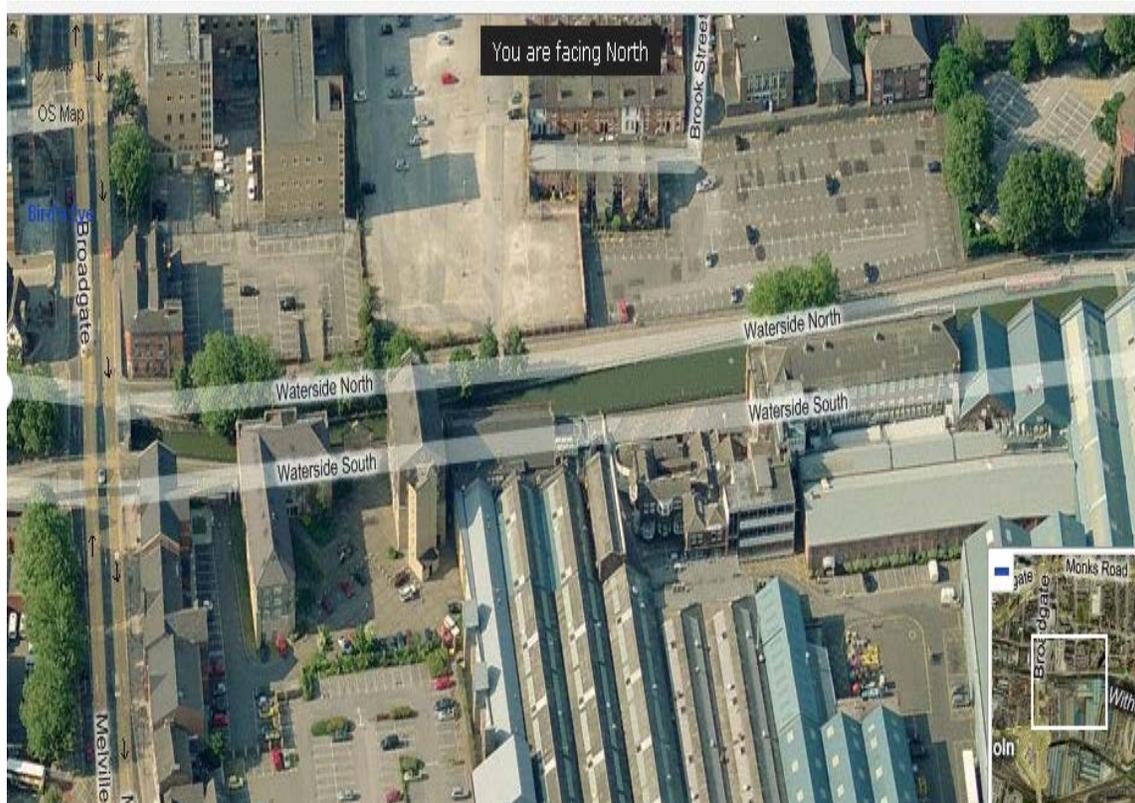

It is also possible to enter Lincoln from the A57; this is passable with a trailer, but harder to follow and very difficult to correct a wrong turn! Cars entering Lincoln this way pass the old racecourse and grandstand and continue to a T-junction with traffic lights opposite a pub called the Horse & Groom. Turn Left, then immediately Right. Stay in the left-hand lane as you pass into the commercial city centre and onto a one way street that becomes Silver Street with House of Fraser on the left. When this road opens into 3 lanes, stay and turn right at the traffic lights at the end onto Broadgate. As above, turn sharp left into Waterside South/North depending on your landing stage allocation.

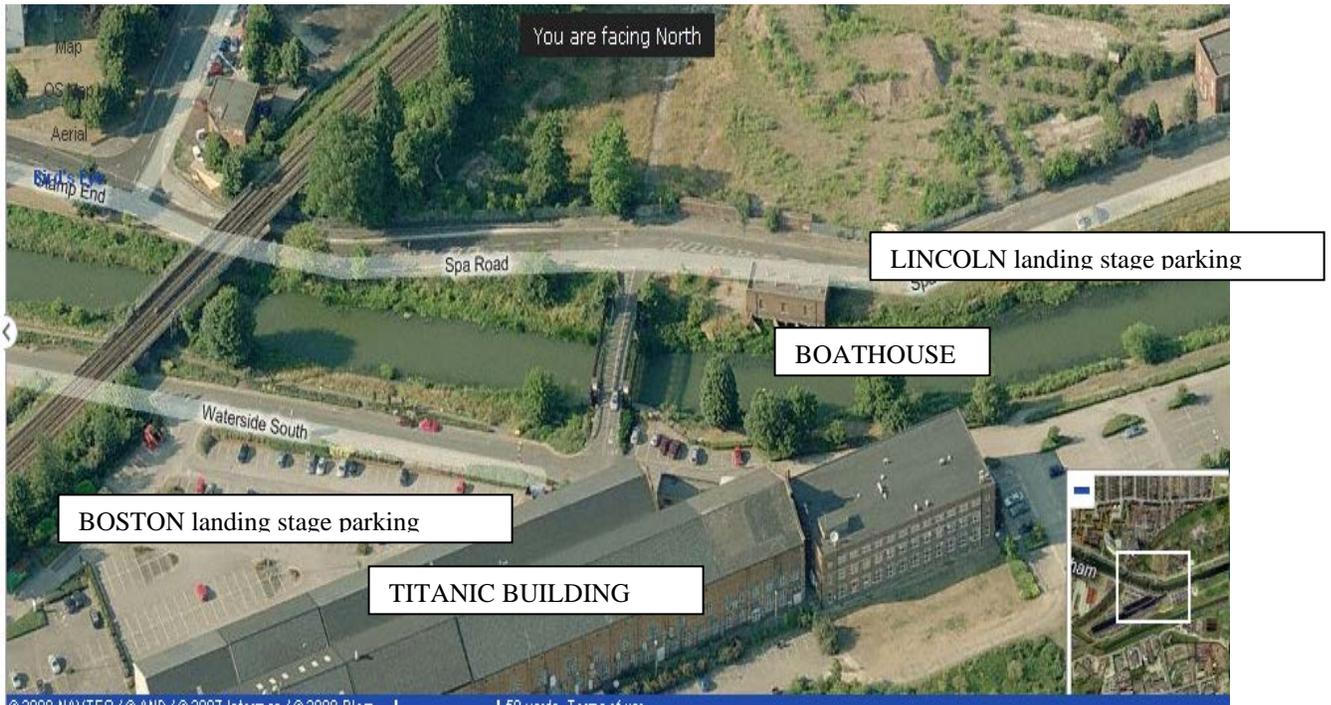

Should you approach from the South, once you cross the river it is necessary to turn left in order to do a loop and allow you to drive back south to turn into Waterside South/North. Follow signs to “Monks Road access”

There is sufficient parking available for vehicles and trailers in the car parks in front of the Titanic Building which houses *Lincs FM*, *LA Fitness Heath Club* and *Anglian Water*, but please be aware that the LINCOLN landing stage area is for trailers ONLY. Please follow the instructions of attendants who will direct you to a suitable space. NOTE: This car park will be in use by workers from the adjacent buildings, so your co-operation in not blocking any entrances or exits that allow access will be appreciated. Lincoln Rowing Centre, the site owners, or their agents, cannot be held responsible for any losses or damages whilst using the car parks.

Additional parking for cars only is available further along the road past Beech House.

Special Items.

At a recent Boston Marathon, the local companies complained about visitors using the verge as a toilet; please ensure all your members use the toilet facilities provided.

There maybe people working in the buildings adjacent to the “Boston-side” car-park. PLEASE ensure you do not block access to car park spaces next to the buildings – includes access for emergency vehicles. You will be allocated a trailer space with room to rig & de-rig boats with sufficient space to avoid the need to block access.

SOUTH SIDE (BOSTON landing stage) CAR PARK PLAN
