

LINCOLN ROWING CENTRE

LINCOLN HEAD

17 MARCH 2024

Travel & Parking Arrangements

Please note that, unlike previous year's parking arrangements we DO NOT have permission to use the Titanic Building car park. As car parking is therefore limited, please park cars in the local car parks, Fig 3.

There are two landing stages in use for Lincoln Head; the **LINCOLN** stage is on the North side of the river, next to the boat house and the **BOSTON** landing stage, as used for the Boston Marathon, is on the South side of the river close to the Titanic Building. Both are situated downriver from Stamp End Lock. Access via Waterside North or Waterside South as appropriate. See Fig 1.

Fig 1 – Access roads to trailer parks

Boston landing stage crews. Crews allocated to the **BOSTON** landing stage should park boat trailers in the car park to the east of Beech House, Fig 2. This may be accessed via Waterside South. Please leave spaces adjacent to the building free and accessible for anybody working in the building.

Lincoln landing stage crews. Crews allocated to the **LINCOLN** landing stage, trailers should be parked parallel to the riverbank in the shallow lay-by east of the boathouse. See Fig 2 below.

All towing vehicles and private cars should be parked in one of the local car parks shown in Fig 3 below.

Sat Nav

For Sat Nav purposes, the intersection of Waterside North with either Spa Road (if recognised) or Broadgate may be useful or Bifrang Engineering which is past the rowing club postcode LN2 5TB; NOTE it is only possible to turn onto Waterside North/South when travelling SOUTH down Wragby Road / Broadgate.

From the North or A46 from Newark or A15 from south

If unsure of navigation to Lincoln RC, drivers of vehicles with trailers are recommended to follow the Lincoln northern/eastern bypass around to the east of Lincoln to the junction with the A158 then turn west towards Lincoln signposted St Giles at the roundabout. Drive towards the cathedral straight along Bunkers Hill and Wragby Road then follow Wragby Road LEFT and follow this for about $\frac{3}{4}$ mile down the hill as it becomes Broadgate.

For those trailers allocated the **LINCOLN** landing stage, turn sharp left into Waterside North just before the Witham Bridge (British Legion on this corner).

For those allocated the **BOSTON** landing turn sharp left into Waterside South immediately after crossing the Witham Bridge.

A footbridge crosses Broadgate overhead at these turnings. NOTE: If you have gone under this footbridge you have missed both turnings.

Both roads then run parallel with the River Witham until Stamp End Lock, you will then pass under the Railway Bridge and the **BOSTON** Landing stage parking is at the end of the road and the **LINCOLN** landing stage parking is past the boat house on the bank side. These roads are narrow. Please take care.

Please follow the instructions of the parking attendants who will direct you to a suitable space. NOTE: The Beech House car park will be in use by workers from the adjacent buildings, so please do not block any entrances or exits. Lincoln Rowing Centre, the site owners, or their agents, cannot be held responsible for any losses or damages whilst using the car parks.

At previous events held at Lincoln, local companies have complained about visitors using the verge as a toilet; please ensure all your members use the toilet facilities provided.
